

THE INSTITUTION OF FIRE ENGINEERS
Founded 1918 • Incorporated 1924

Examination Reading List as at January 19th 2010

The IFE Examination Reading List has been partially revised for the examinations taking place in March 2010. The identification and provision of resources is an on-going process and there will be further additions to this list during December 2009 and January 2010. Please consult this list from time to time to discover the most recent updates.

Those books with a **yellow background** can be supplied directly by the IFE. To order direct, please follow this hyperlink:- http://www.ife.org.uk/shop/category_view . (Please select the appropriate publisher from the menu on the left of the page.)

Those books with a **green background** can be ordered specially, in which case please contact Mae Ellison for prices and delivery times at mae.ellison@ife.org.uk

Those books in white can be obtained on the internet or in bookshops. The IFE and FPA publish jointly the *Fire Risk Management* journal on a monthly basis. The articles it contains are valuable resources, and candidates will need to categorise these articles for themselves by syllabus and by subject.
